

What-am I still in America or what?What valid reason could anyone possibly have to take away a needed,useful,constitutionally protected endeavor,like XM RADIO traffic and weather channel? LEAVE IT ALONE!! I ask the FCC to shut down these lobbyests who are representing old,outdated technology,and who dont want to spend the money to come into the modern age.I am a TRUCKER,and I really need,use,and enjoy my XM RADIO!!ROBERT W BRADFORD
